    c. There were a number of questions from members:
        - An update on the newspaper reporting on facilities closing early: Chair confirmed that this had been checked with council officials and there was no ongoing conversation but noted an understanding that the agreement between the Council and Club would be a key consideration.
        - Potential to use Fife College facilities: Chair noted the opportunity and the development of a partnership around the staff posts. A closer working relationship with the college will be beneficial and the potential for facility access is being explored.
        - Ambition of new posts: Administration and Membership Role: the priority to improve administration and communication, use and improve the system we have, keep members informed and improve communication. Early Pathway Lead role: focus on coach

development and early pathway coming into the club and set up to have the best chance of success in the game. New activities in villages, plus working with coaches and young leaders and create a great environment for players. Building on what we have in place already. Exciting time.

- Is there facility space for additional sessions: noted that these will be delivered locally for young people in their communities so won't use central space. Initial delivery will be sessions in Benarty and High Valleyfield potentially expanding from there.
- Facility Contract: a 25 year facility partnership was signed with the Council in 2014, so runs to 2039. We are beyond half-way point in that agreement, so should be thinking about future.
