

## NEWSLETTER - Q1 2026

### TEAMER NO MORE...HELLO SPOND

In February we will be moving away from Teamer and introducing Spond. This change allows for a more enhanced training & match day attendance tracking structure as well as providing a better platform for team specific and club wide communication. Links will be sent to all families in February and the app will be fully functional from March 2026.

### CLUB SHOP - FOOTBALL NATION

Our Club Shop is available by our brilliant partners at Football Nation. If you require replacement or additional training or match kit these can be purchased by Football Nation directly. Any items purchased from within the Hibernian Community Club shop will automatically provide our club with a 10% kickback at no additional cost to you the customer. These funds will then be used to support the purchase of equipment across our club.

### WE NEED YOUR HELP!

#### PARENT COACHES & TEAM HELPERS NEEDED!

To ensure we provide the best environments for our players we are in desperate need of more Parent Coaches & Team Helpers across the club. Without parental volunteer support grassroots club would not exist and we are no different. If you are interested in supporting your age group on a weekly basis at trainings and matches please contact our staff to get involved. Full Training and ongoing support would be provided.

#### CLUB WORKING GROUP / COMMITTEE

In March we are going to be creating our first ever 'Working Group / Committee' that will help drive our club forwards in the future. An expression of interest form will be sent to all parents / guardians in February to start the process. If you have a specific skill-set or a real passion to support grassroots football then we are looking for you. Further details will be sent to all in the coming weeks.

### HOME @ MEADOWMILL

We are delighted to announce we have entered into an agreement with Enjoy Leisure / East Lothian Council to utilise the facilities at Meadowmill Sports Centre as our new home from March 2026.

This will mean we now have a weekly home base for all matches all year round.

We are currently working with EL & ELC to further enhance this agreement to allow us to use the facilities for training during the summer months too (April to September). Further information will be provided once the agreement and processes have been finalised between both parties.

### CLUB FRAMEWORK

Starting in February we will be launching our new Club Framework which will be implemented across our Club. This Player Development framework has been created to enhance our player experience across the club and support our brilliant volunteer coaches in providing the best training & match day environments possible.

Our volunteer coaches will work towards a set framework weekly and this will also be communicated weekly to all parents / guardians so you too know what we are working on each week across our entire club.

Follow 'Hibernian Community Club' on social media.
